

Eco-One

engineered
in
Switzerland

The “Eco-One” machine has been developed with the intention to make it affordable for all kinds of apparel producers: Bespoke tailors, sample rooms, small to medium production units.

Our new Eco-One machine is portable, light weight and small in size. Place it on a table-top, connect it to the electrical supply, set the number of wraps and start wrapping your button shanks. Ascolite Genuine Recycled Sustainable Yarn, (our RTF & RSF Yarns). The resulting secured button shanks prevent any button loss and make it easy to fasten and unfasten the buttons.

Performance data

Garment types:	Jackets, Trousers, Shirts, & Outerwear
Number of buttons wrapped per 250m cone	up to 3000*
Buttons per hour including handling time	450
Operator handling steps	3
Controls	LCD Display

Technical Data

Voltage	110/250V Single phase
Wattage	21 Watt
Gross weight	6 Kgs
Box dimensions	39.5 x 24.5 x 27 cm

* Depends on number of wraps, gap between button and fabric, number of stitches and thickness of sewing thread.

Our machines are being engineered in Switzerland and manufactured in our European premises. Directives as amended from the EEC General Directive 93/68/EEC, DIRECTIVE 2006/42/EC (Machinery Directive), DIRECTIVE 2004/108/EC (Electro Magnetic Compatibility), DIRECTIVE 2006/95/EC (Low Voltage) only for equipment/assembly installed in safe areas.

User friendly LCD display

New ergonomically positioned heating fork

YRS® - The ultimate system to protect customer quality standard

The newly designed heating fork-position speeds up the handling process, is more ergonomical and achieves a maximum bonding of our TF-Yarn. The proven Ascolite (YRS) Yarn Recognition System assures the best results in button shank wrapping.
