

ASCOLITE[®]
HEAT SEALED BUTTON SECURITY

BSS-Model 8

made
in Italy

The worldwide most proven
semi-automatic button shank
wrapping machine

The BSS-Model 8 is based on the Swiss inventors original idea of 1972 of securing buttons in a professional manner. Further developed to be the semi-automatic factory- and sample room model for small to medium size productions. Being small, it offers total location flexibility.

Number of buttons wrapped per 250m cone	up to 3000
Buttons per hour including handling time	600
Handling steps	3
Controls	LCD Display

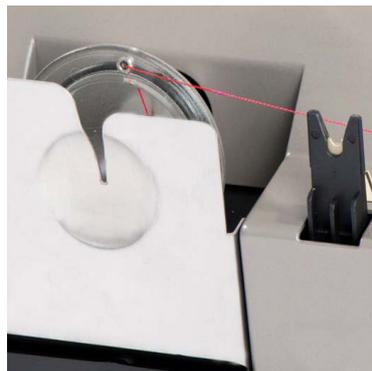

Technical Data

Voltage	110/250V Single phase
Wattage	21 Watt
Gross weight	8,2 Kgs
Box dimensions	40x30x26 cm

Our machines are engineered in Switzerland and manufactured in Italy in conformity with the basic requirements of the following European Directives as amended from the EEC General Directive 93/68/EEC, DIRECTIVE 2006/42/EC (Machinery Directive), DIRECTIVE 2004/108/EC (Electro Magnetic Compatibility), DIRECTIVE 2006/95/EC (Low Voltage) only for equipment/assembly installed in safe areas.

User friendly LCD display

New ergonomically positioned heating fork

YRS® - The ultimate system to protect customer quality standard

The newly designed heating fork position makes the handling process faster, more ergonomical and achieves maximum bonding of our TF-Yarn. The proven Ascolite YRS Yarn Recognition System assures the best results in button shank wrapping.
